Computer Science & Engineering   **B.Tech.**
Lovely Professional University   **Male**
Specialization: Machine Learning   **DOB: 0**1-08-1998

Examination	University	Institute	Year	CGPA / %
B.Tech(CSE)	Lovely Professional University	Lovely Professional University	2019	8.37
Intermediate/+2	CBSE	Jawahar Navodaya Vidyalaya	2015	76
Matriculation	CBSE	Jawahar Navodaya Vidyalaya	2013	9.2

Projects

IMDB Sentiment Analysis
Python
Jan 2018
- Designed Machine Learning project to analyze polarity of movies review using IMDB dataset.
- IMDB dataset have two directories that store the positive and negative movies review.
- Based on these dataset machine can classify the reviews of movie.

Blood Diagnosis System
Matlab
Nov 2017-Dec 2017
- Designed Blood Diagnosis System using Fuzzy Logic in Soft Computing Technique.
- It diagnosis using features White Blood Cells, red blood cells, and platelets.
- Based on the combination of these three features, we can advise the person that they suffering from diseases or not.

Result Management System
C++
Feb 2016-April 2016
- Designed Result Management System to store the students result along with their information.
- In this we can insert, delete, and show the marks of student along with their percentage.

Other Projects:-. Flight Booking System, Gaussian Process for Machine Learning

Skills
- Programming languages   C, C++, Java
- Areas of Interest   Machine Learning, Soft Computing Technique, Artificial Intelligence
- Training   **Microsoft Azure 70-532** (Board Infinity)

Campus Activities
Placement Coordinator
- Worked as a Placement Coordinator of the college.

Extra-Curricular Activities
- Participated in Quiz-wizz.
- Participated in Cricket Cup

Language Proficiency
- English, Hindi
